

INTERNSHIP APPLICATION FOR THE MILLER LAB AND SBC MBON (2017)

The Miller Lab at the Marine Science Institute is seeking dedicated interns who are interested in research, ecology, marine science or scientific scuba diving. The Santa Barbara Channel Marine Biodiversity Observation Network (SBC MBON) is a new project that will assess biodiversity of benthic and pelagic habitats of the Santa Barbara Channel using diverse methodologies. In the Miller Lab, we specifically focus on benthic, kelp forest communities.

Internship duties will include: photo-scoring and image analysis, sorting, processing and identifying marine organisms, assisting subtidal surveys (AAUS divers only!), data entry and quality assurance and managing and maintaining field equipment.

Please email Sarah Sampson (srsampson@ucsb.edu) with any questions, comments or concerns.

PLEASE DROP OFF A PAPER VERSION OF THIS APPLICATION TO THE MILLER LAB - MSI 2004

NAME _____ ACADEMIC YEAR _____

EMAIL ADDRESS _____ MAJOR _____

PHONE NUMBER _____ GPA _____

PLEASE LIST AND BRIEFLY DESCRIBE ANY INTERNSHIPS OR OTHER RESEARCH EXPERIENCES RELATED TO MARINE SCIENCE:

LIST COMPUTER, MISCROSCOPE OR ANY OTHER LABORATORY SKILLS AND EXPERIENCES:

PLEASE DROP OFF A PAPER VERSION OF THIS APPLICATION TO THE MILLER LAB - MSI 2004

LIST ANY COURSEWORK RELATED TO MARINE SCIENCE:

WHY DO YOU WANT THIS INTERNSHIP? WHAT ARE YOUR LEARNING GOALS?

HOW MANY HOURS IN A WEEK CAN YOU VOLUNTEER IN THE LAB? PLEASE LIST YOUR SCHEDULE WITH BOTH DAILY AND HOURLY AVAILABILITY. (THE LAB IS CLOSED ON WEEKENDS)
